EDUCATION

Georgia Institute of Technology

Bachelor's of Science in Computational Media

Atlanta, GA

Aug. 2025 – May 2028

Gateway Community and Technical College

Associate's in Computer Science

Edgewood, KY

Aug. 2022 – May 2025

EXPERIENCE

Developer Support & Quality Assurance Lead

Rise Up Academics

Aug. 2026 – Present

Erlanger, KY

- Support software development and quality assurance for a team of 9 student game designers
- Manage Scaled Agile sprints/backlog, evaluate team progress through regular live demos, and teach industry-standard coding and design principles where necessary
- Communicate development setbacks and clarify requirements to project stakeholders

Service/Kitchen Associate

Panda Express

Aug. 2025 – Present

Atlanta, GA

- Train new hires in Front of House and Back of House operations – including customer management, cooking with a wok, and sanitation
- Lead ordering process at two top-earning regional stores in the Midwest and Southern United States (1000+ customers or **greater than \$14,000 in sales** per day)
- Optimize delivery system to improve correctness and satisfaction metrics while maintaining service speed

Lead Product Owner

Stratishield AI (f.k.a. Envizo)

Aug. 2025 – May 2026

Las Vegas, NV

- Led a team of 4 students co-developing AI-powered data analysis technologies
- Taught interns SQLite, Python, and professional communication; contacted local businesses about partnerships
- Orchestrated weekly sync meetings to plan and approve sprint progress, held official demos for business partners and interested upperclassmen

Product Owner

Eastern Kentucky University

Aug. 2024 – May 2025

Richmond, KY

- Designed and wire-framed an iOS application for prospective students using Adobe XD and Figma
- Completed 28 UI updates during college admissions season, revitalizing the application for a new wave of freshman and their most common queries (dorms, dining, financial aid, etc.)
- Spearheaded survey distribution targeting **100+ current students and applicants**, presented feedback to university officials and implemented desired changes

PROJECTS

Silhouette | C#, Unity

Sept. 2022 – Aug. 2023

- Programmed a rhythm game in Unity with a team of 2 artists/designers, designed to spread awareness about growing mental health concerns in Kentucky public schools
- Licensed music for educational use, uploaded our project to GitHub under Creative Commons, and presented our work to **40+ students** at our school
- Analyzed and compiled related research articles, personal anecdotes, and similar public documents to improve game accuracy and meet **APA ethical standards**
